ARTIST'S STATEMENT

Hayden illustrates with a kitschy, mid-century sensibility and a vibrant fearlessness of color. Hayden's work possesses a charmingly endearing sense of irreverence which bespeaks his inherently optimistic spirit and keen sense of humor.

I am originally from the beautiful wilderness of Idaho, but now live in Southern California with my wife Sarah and our son Ferris. I have a degree in Illustration, and enjoy singing and playing the piano, the organ, and the bassoon - at different times, of course! I'm passionate about mid-century Americana, all things Halloween, and vintage Disneyland history.
